

K-LOVE is an important part of our community. As a Christian radio station, it gives me something to listen to with my family without having to worry about what my daughter or anyone else in the car is listening to. They have come to the assistance of people in the community not only with their prayers and the ability to reach so many people, but also in other times of need. If K-LOVE was displaced, there would be one less reason for me to listen to the radio. When I am not able to listen to K-LOVE, I listen to CD's. The music they play and the lack of commercials encourages others to listen to it. The music encourages others to live a better life than what life is today. The fact that the station is listener supported should expree how many people believe in this station and want to listen to it. Thank you.
